RESOLUTION 2022-28

RESOLUTION OF THE BOARD OF DIRECTORS OF THE RESOURCE CONSERVATION DISTRICT OF GREATER SAN DIEGO MAKING FINDINGS IN ACCORDANCE WITH AB 361 AND GOVERNMENT CODE SECTION 54953, AUTHORIZING REMOTE TELECONFERENCE MEETINGS OF THE LEGISLATIVE BODIES OF THE RESOURCE CONSERVATION DISTRICT OF GREATER SAN DIEGO

WHEREAS, all meetings of the Resource Conservation District of Great San Diego County's ("District") Board of Directors are open and public, as required by the Ralph M. Brown Act (Cal. Gov. Code 54950 – 54963), so that any member of the public may attend, participate, and watch the District's legislative bodies conduct their business; and

WHEREAS, Governor Newsom signed AB 361, amending the Brown Act, including Government Code section 54953, subd. (e) that makes provisions for remote teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code section 54953, subd. (b)(3), subject to the existence of certain conditions; and

WHEREAS, a required condition of AB 361 is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code section 8558; and

WHEREAS, on March 4, 2020, Governor Newsom issued a Proclamation of State of Emergency in response to the COVID-19 pandemic; and

WHEREAS, the proclaimed state of emergency remains in effect; and

WHEREAS, California Department of Public Health and the federal Centers for Disease Control and Prevention caution that the Delta variant of COVID-19, currently the dominant strain of COVID-19 in the country, is more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others resulting in rapid and alarming rates of COVID-19 cases and hospitalizations (https://www.cdc.gov/coronavirus/2019-ncov/variants/delta-variant.html); and

WHEREAS, the District is committed to preserving and nurturing public access and participation in meetings of the Board of Directors and to protecting the health, welfare, and safety of the participants; and

WHEREAS, the Board of Directors does hereby find that the COVID-19 emergency has caused, and will continue to cause, conditions of peril to the safety of persons within the District that are likely to be beyond the control of services, personnel, equipment, and facilities of the District, and deems it necessary to find that meeting in person for meetings of all District-related legislative bodies as well as subcommittees of the Board of Directors subject to the Ralph M. Brown Act, would present imminent risks to the health or safety of attendees, and thus intends to invoke the provisions of AB 361 related to teleconferencing as provided in Government Code section 54953, subd. (e); and

Agenda Item 7-4: RCD Legislative Advocacy Policy

Discussion / History:

The RCD does not have a policy in place outlining how and why it takes a position on legislative issues. The Legislative Advocacy Policy presented today outlines the purpose, goals, and principles of the policy as well as lays out proposed advocacy priorities and procedures. This will provide guidance to Board and staff for steps to take to respond to requests for supporting legislation in a timely and structured manner.

Financial Impact: None.

Staff Recommendation to Board: Staff recommends that the Board approves the Legislative Advocacy Policy, or provides feedback on any revisions they feel are needed.

Resource Conservation District of Greater San Diego County Legislative Advocacy Policy

Proposed September 14, 2022

Purpose

The purpose of the policy is to guide Resource Conservation District of Greater San Diego County (District) Board and staff in considering legislative or regulatory proposals that are likely to have an impact on the District, and to allow for a timely response to important legislative issues, including designation of the District as a supporter of legislation, and/or letters from the District to the Legislature and/or Congress consistent with this policy. Although the expenditure of public funds for the purpose of supporting or opposing a ballot measure or candidate is prohibited, the expenditure of public funds is allowed to advocate for or against proposed legislation or regulatory actions which will affect the public agency expending the funds.

The purpose for identifying Legislative Advocacy Procedures is to provide clear direction to District staff with regard to monitoring and acting upon bills during state and federal legislative sessions. Adherence to Legislative Advocacy Procedures will ensure that legislative inquiries and responses will be administered consistently with "one voice" as to the identified Advocacy Priorities adopted by the Board of Directors. The Legislative Advocacy Procedures and Advocacy Priorities will provide the District Executive Director, or other designee, discretion to advocate in the District's best interests in a manner consistent with the goals and priorities adopted by the Board of Directors.

Policy Goals

- Advocate the District's legislative interests at the County, State, and Federal levels.
- Inform and provide information to the Board of Directors and district staff on the legislative process and key issues and legislation that could have a potential impact on the district.
- Serve as an active participant with other local governments, the California Association of Resource Conservation Districts, the California Special Districts Association, and other aligned entities on legislative and regulatory issues that are important to the district and the region.
- Seek grant and funding assistance for District projects, services, and programs to enhance services for the community.

Policy Principles

The Board of Directors recognizes the need to protect District interests and local control, and to identify various avenues to implement its strategic and long-term goals. It is the policy of the District to proactively monitor and advocate for legislation as directed by the Advocacy Priorities and by the specific direction of the Board of Directors.

This policy provides the District's Executive Director, or other designee, the flexibility to adopt positions on legislation in a timely manner, while allowing the Board of Directors to set Advocacy Priorities to provide policy guidance. The Board of Directors shall establish various Advocacy Priorities and, so long as the position fits within the Advocacy Priorities, staff is authorized to take a position without board approval.

Whenever an applicable Advocacy Priority does not exist pertaining to legislation affecting the District, the matter shall be brought before the Board of Directors at a regularly scheduled board meeting for formal direction from the Board of Directors. The Board of Directors may choose to establish a standing committee of two Directors, known as the "Legislative Advocacy Committee", with the authority to adopt a position when consideration by the full Board of Directors is not feasible within the time-constraints of the legislative process.

Generally, the District will not address matters that are not pertinent to the district's local government services, such as social issues or international relations issues.

Advocacy Priorities

Support the District's Mission

The District's mission is to empower communities to protect, conserve, and restore natural resources through education, collaboration, and implementation. The District will support legislation that <u>directly</u> supports this mission. Examples of how legislation could support the District's mission include but are not limited to: creating technical assistance or incentive programs that support conservation efforts on the part of landowners; streamlining permitting requirements in order to facilitate conservation projects such as habitat restoration or climate-smart farming; developing conservation grant programs or allocating grant funds to conservation work.

Recognize the Important Role of RCDs Statewide

Examples of how legislation could recognize the role of RCDs include but are not limited to specifically listing RCDs as participants in advisory or decision-making bodies, as providers of technical assistance, as entities eligible for grant or contract funds, or as otherwise integral to carrying out the intent of the legislation.

Support Funding Opportunities

Support opportunities that allow the District to compete for its fair share of regional, state and federal funding, that leverage the District's ability to contract directly with state agencies, and that maintain funding streams. Opportunities may include competitive grant programs, direct contracts, or dedicated funding streams at the regional, state and federal levels. In addition to new or continued funding streams, support measures that improve the administration of such funds, for example through advance payments, prompt payment clauses, or support of adequate indirect cost reimbursements.

Do Not Support New or More Stringent Regulations

The District is a non-regulatory public agency. While we do not outright oppose the concept of regulation, our work is founded in voluntary efforts. As such, we do not support legislation that imposes additional regulations, or makes existing regulations more onerous. We do support efforts to streamline regulations in order to facilitate voluntary conservation efforts.

Preserve Local Control

Preserve and protect the District's powers, duties and prerogatives to enact policy direction concerning local affairs and carry out programs to address local resource concerns, and oppose legislation that preempts local authority. Support measures that preserve local control over local government

budgeting. Oppose mandates that will result in additional costs to the District with no guarantee of local reimbursement or offsetting benefits. Oppose measures that shift local funds to the State or Federal Governments without offsetting benefits.

Legislative Advocacy Procedures

It is the policy of the District to proactively monitor and advocate for legislation as directed by the Guiding Principles and by the specific direction of the Board of Directors. This process involves interaction with federal, state and local government entities both in regards to specific items of legislation and to promote positive ongoing intergovernmental relationships.

Monitoring legislation is a shared function of the Board of Directors and District staff. The Legislative Advocacy Procedures are the process by which staff will track and respond to legislative issues in a timely and consistent manner. The Executive Director, or other designee, will act on legislation utilizing the following procedures:

- The Executive Director or other designee shall review requests that the District take a position on legislative issues to determine if the legislation aligns with the district's current approved Advocacy Priorities.
- 2. The Executive Director or other designee will conduct a review of positions and analysis completed by the California Special Districts Association, California Association of Resource Conservation Districts, and other local government associations when formulating positions.
- 3. If the matter aligns with the approved priorities, District response shall be supplied in the form of a letter to the legislative body reviewing the bill or measure. Advocacy methods utilized on behalf of the district, including but not limited to letters, phone calls, emails, and prepared forms, will be communicated through the Executive Director or designee. The Executive Director or designee shall advise staff to administer the form of advocacy, typically via letters signed by the Executive Director, or designee, on behalf of the Board of Directors.
- 4. All draft legislative position letters initiated by the Executive Director or designee shall state whether the district is requesting "support", "support if amended", "oppose", or "oppose unless amended" action on the issue, and shall include adequate justification for the recommended action. If possible, the letter should include examples of how a bill would specifically affect the district.
- 5. The Executive Director may also provide a letter of concern or interest regarding a legislative issue without taking a formal position on a piece of legislation. Letters of concern or interest are to be administered through the Executive Director or designee.
- 6. A position may be adopted by the Executive Director or designee if any of the following criteria is met:
 - a. The position is consistent with the adopted Advocacy Priorities;

- b. The position is consistent with that of organizations to which the district is a member, such as the California Special Districts Association; or
- c. The position is approved by the Board of Directors [or the Legislative Advocacy Committee].
- 7. All legislative positions adopted via a process outside of a regularly scheduled Board Meeting shall be communicated to the Board of Directors at the next regularly scheduled Board Meeting. When appropriate, the General Manager or other designee will submit a report (either written or verbal) summarizing activity on legislative measures to the Board of Directors.

Candidates for Public Office

It is the policy of the District not to participate in, directly or indirectly, or to intervene in (including by means of the publishing or distributing of statements) any political campaign on behalf of or in opposition to any candidate for public office.

Individual Land Use Projects

It is the policy of the District not to take positions on individual land use projects, for example a new housing development or farming operation.

Advocacy on the part of Individual District Directors and Staff

Notwithstanding the above policies, the District recognizes that individual Board Members and staff may wish to participate in the political process. Individual Board Members and staff may take a position on behalf of or in opposition to any candidate for public office or any legislation and communicate regarding those positions so long as they clearly indicate that the position reflects their individual views and is not the position of the District. In no case shall a member of District staff, in the course of their professional role, take or communicate a position which is contrary to an official position of the District.

Agenda Item 7-8: Speak-off judging panel

Discussion / History:

RCDGSDC, in collaboration with Mission RCD and Upper San Luis RCD, is hosting a regional Speak-off competition for San Diego County high school students. Participants will submit a recorded speech on this year's topic, focused on drought and what RCDs can do to help. These videos will be assessed and a 1st, 2nd, and 3rd place winner will be selected. Each will receive a small cash prize, and the 1st place winner will go to the state-wide competition to take place during the CARCD annual conference. The three RCDs will evenly split these costs.

Staff would like to invite Board members to participate in the assessment panel, whether it is a task the Scholarship committee would like to participate in or if other Board members would like to be involved. The judging will take place in mid-October.

Financial Impact: No cost associated with judging the submissions; our share of the Speak Off cash prizes will be \$166 plus a portion of travel and accommodation for the first place winner.

Staff Recommendation to Board: Staff recommends that the Board assigns the Scholarship Committee or other Board members to participate in judging Speak Off submissions, if it is of interest.
