INDEPENDENT AUDITOR'S REPORT

Board of Directors Resource Conservation District of Greater San Diego County Lakeside, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, and the general fund of Resource Conservation District of Greater San Diego County (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the State Controller's *Minimum Audit Requirements for California Special Districts*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, and the general fund of Resource Conservation District of Greater San Diego County as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Resource Conservation District of Greater San Diego County's basic financial statements. The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements attements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2020 on our consideration of Resource Conservation District of Greater San Diego County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Resource Conservation District of Greater San Diego County's internal control over financial reporting and compliance.

RESOURCE CONSERVATION DISTRICT OF GREATER SAN DIEGO COUNTY MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDING JUNE 30, 2019

This discussion and analysis of the Resource Conservation District of Greater San Diego County's (District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also reference notes to the auditor's basic financial statements to enhance their understanding of the District's financial performance.

Note: The District is an independent special purpose non-enterprise district (local government) formed under Division 9 of the California Public Resources Code; as such, complies with all pertinent regulations and requirements thereto. As a local governmental entity, the District is tax-exempt under IRS rules. The District conducts annual financial audits by an independent auditing firm. The audit firm selected by the District to conduct the audit for fiscal year 2018-2019 was Wilkinson Hadley King & Co. LLP. District programs, projects, and services are primarily funded by local, state, and federal grants and donations.

USING THESE FINANCIAL STATEMENTS

This report consists of a series of financial statements and the notes to those statements. These statements are organized so that the reader can understand the District as a complex financial entity. These statements then proceed to provide an increasingly detailed look at specific activities. All figures are supported by the annual audit as completed by the firm Wilkinson Hadley King & Co. LLP.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2018-2019 are as follows:

- Total net position is \$2,362,076.
- Net position not invested in buildings, land or equipment (i.e., unrestricted) is \$474,492
- Total tax assessment dollars deposited to the District were \$345,763.
- Program expenditures of the District totaled \$778,822 the majority of which will be reimbursed to the District from multiple grant sources in the 2018-2019 fiscal year:
 - USFS, Fuel Reduction Program
 - IRWMP
 - SD River Conservancy
 - NACD
 - DOC
 - Sunrise Powerlink Mitigation
 - USDA Cleveland National Forest
 - USFWS
 - County of San Diego CEG, NRP

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual audit report consists of the following:

- Management's Discussion and Analysis
- Basic financial statements
- Other required supplementary information

The financial statements include notes which explain in detail some of the information included in the basic financial statements.

REQUIRED FINANCIAL STATEMENTS

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) including Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* and are reported using a full accrual basis of accounting. The Statement of Net Position includes information on the District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities). The Statement of Activities identifies the District's revenues and expenses for the fiscal year ended June 30, 2019. These statements provide information on the District has recovered all of its actual and projected costs through contract (program) reimbursements and other charges.

FINANCIAL ANALYSIS OF THE DISTRICT

The Statement of Net Position, Statement of Activities, Balance Sheet of Governmental Funds, and Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds provide an indication of the District's financial condition and also indicate the financial condition during the last fiscal year. The District's net position reflects the difference between assets and liabilities. An increase in net position over time typically indicates an improvement in financial condition.

FIXED ASSETS

At the end of the 2018-2019 fiscal year, the District's fixed assets were:

- o 2010 Toyota Rav 4 utilized to conduct programmatic business.
- o 2016 Subaru Forester utilized to conduct programmatic business.
- Real property located at 11769 Waterhill Road, Lakeside, CA 92040, which was acquired by the District in fiscal year 2007-08 utilizing the District's reserve funds, includes land, buildings, and improvements. In addition, the District owned \$47,760 in furniture assets.

11769 Waterhill Road; Lakeside, CA 92040 Phone: 619-562-0096; Fax: 619-562-4799 Website: www.rcdsandiego.org

REVENUES

The primary source of revenue for the District is local, state and federal program grants, miscellaneous fees for services, and tax apportionment dollars. All figures are taken from audit reports.

REVE	NUES 2017-18		REVE	NUES 2018-19	
0	Interest income	\$12,730	0	Interest income	\$25,627
0	Miscellaneous revenue	\$3,070	0	Miscellaneous revenue	\$3,302
0	Grant revenue	\$673,609	0	Grant revenue	\$894,686
0	Tax assessments	\$327,490	0	Tax assessments	\$345,763
0	Total revenues on hand, including grant program reimbursements, tax assessment dollars, interest and miscellaneous income	\$1,016,899	O	Total revenues on hand, including grant program reimbursements, tax assessment dollars, interest and miscellaneous income	\$1,269,378

EXPENDITURES 2017-18	\$1,095,255	EXPENDITURES 2018-19	\$1,390.768
----------------------	-------------	----------------------	-------------

FINANCIAL ASSISTANCE

The District received financial assistance for fiscal year 2018-2019 in conjunction with programs for stormwater education presentations (Port of San Diego and municipalities), fuel reduction programs (USFS), County of San Diego Fuel Reduction, DSAP, SPMG, CDFA, CARCD, DOC, NRCS and The State of CA DWR Prop 84. These programs are primarily reimbursable contractual programs requiring that the District invoice the funding entities for program expenditures; occasional pre-reimbursement dollars are advanced toward selected programs and are recorded as such. Fees for service were derived from the Tijuana River Valley Community Gardens program plot leases and hourly rates billed to partner agencies for support.

CONTACTING THE EXECUTIVE DIRECTOR

The financial report is designed to provide our taxpayers and citizens with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need any additional financial information, contact Sheryl Landrum, Executive Director, 11769 Waterhill Road, Lakeside, CA 92040. Email: sheryl.landrum@rcdsandiego.org. Website: www.rcdsandiego.org and www.firesafesdcounty.org.

The accompanying notes are an integral part of this statement

A. Organization:

The Resource Conservation District of Greater San Diego County (District) was formed on May 8, 1995 by the merging of the Resource Conservation District of Central San Diego and the Greater Mountain Empire Resource Conservation District. The District's purpose is to provide soil, water and related resource conservation information and assistance in San Diego County.

B. Summary of Significant Accounting Policies:

Reporting Entity

The District operates under a locally elected Board form of government and provides conservation services as mandated by the state as a special district. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District.

Component Units

The Resource Conservation Foundation of Greater San Diego County (the Foundation) has a financial and operational relationship which meets the reporting entity definition criteria of the Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the Foundation as component unit of the District. Therefore, the financial activities of the Foundation have been included in the basic financial statements of the District as a discretely presented component unit.

The Resource Conservation Foundation of Greater San Diego County, a California non-profit public benefit corporation, has created a permanent endowment fund that is used to support and enrich the conservation, preservation, and education programs of the District. There were no distributions from the Foundation to the District during the fiscal year ended June 30, 2019.

The following are those aspects of the relationship between the District and the Foundation which satisfy Codification of Governmental Accounting and Financial Reporting Standards, Section 2100 criteria:

Nature and Significance of Relationship

Certain organizations warrant inclusion as part of the financial reporting entity because of the nature and significance of their relationship with the primary government, including their ongoing financial support of the primary government or its other component units. A legally separate, tax-exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met:

- a. The economic resources received or held by the Foundation are entirely for the direct benefit of the District.
- b. The District is entitled to, or has the ability to otherwise access a majority of the economic resources received or held by the separate organization.
- c. The economic resources received or held by the Foundation are significant to the District.

B. Summary of Significant Accounting Policies: (Continued)

Basis of Presentation and Accounting

Government-wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. The District has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund. The District has no other funds.

Measurement Focus

Government-wide Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured.

B. Summary of Significant Accounting Policies: (Continued)

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Budget and Budgetary Accounting

The District's budget for the general fund is adopted on a modified accrual basis. The Executive Director submits to the Board of Directors a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. Prior to July 1, the budget is legally enacted through Board action, if the expenditures exceed the appropriations the Administrator is authorized to transfer budgeted amounts between line items within any fund; however, any revisions that alter the total expenditures of any division or department must be approved by the Board of Directors. Supplemental appropriations were made during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

Property Taxes

General property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 15 and March 15. Unsecured property taxes are payable in one installment on or before August 31. The County of San Diego bills and collects the taxes for the District. Tax revenues are recognized by the District when received.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The current portion of the liabilities is recognized in the general fund at year end. Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable.

Income Taxes

The District is a governmental organization exempt from federal and state income taxes.

B. Summary of Significant Accounting Policies: (Continued)

Funding Sources

Significantly all of the District's primary funding sources come from grants and contracts entered into with various federal, state and local agencies.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used. Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Buildings	25-50 years
Building improvements	20-50 years
Vehicles	5 years
Furniture and equipment	5-10 years

Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Fund Balance Reserves and Designations

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

B. Summary of Significant Accounting Policies: (Continued)

Assigned Fund Balance – represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. The governing board has designated management to be authorized to make such assignments. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Minimum Fund Balance Policy – The District maintains a minimum operational reserve which is sustained during periods of economic uncertainty. Minimal operational reserves shall be accrued to ensure three years of minimal facility and administrative functions at a rate of \$260,000 annually with the maximum amount set at \$780,000. When the annual accumulation would increase the operational reserve beyond \$780,000, only the amount required to reach the maximum will be reserved. The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures.

Deferred Inflows and Deferred Outflows of Resources

Deferred outflows of resources is a consumption of net position that is applicable to a future reporting period. Deferred inflows of resources is an acquisition of net position that is applicable to a future reporting period. Deferred outflows of resources and deferred inflows of resources are recorded in accordance with GASB Statement numbers 63 and 65. As of year ended June 30, 2019, the District did not have any deferred inflows of resources or deferred outflows of resources.

Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles as defined by Governmental Accounting Standards Board (GASB) Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is detailed as follows:

Level 1 Inputs: Quoted prices (unadjusted) in active markets for identical assets or liabilities that a government can access at the measurement date.

B. Summary of Significant Accounting Policies: (Continued)

Level 2 Inputs: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 Inputs: Unobservable inputs for an asset or liability.

Compliance and Accountability

Finance-Related Legal and Contractual Provisions: In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures", violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations.

Violation-None Reported. Action Taken-Not Applicable.

Deficit Fund Balance or Fund Net Position of Individual Funds: Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits.

Fund Name-None Reported. Deficit Amount-Not Applicable. Remarks-Not Applicable.

C. Fair Value Measurements:

The District's investments at June 30, 2019, categorized within the fair value hierarchy established by generally accepted accounting principles were as follows:

		Q	uoted				
		Pr	ices in				
		A	Active	S	Significant		
		Mai	rkets for		Other	Sign	ificant
		Inc	lentical	C	Observable	Unob	servable
		A	Assets		Inputs	In	puts
	 Amounts	(L	evel 1)		(Level 2)	Lev	/el (3)
External investment pools measured at fair value							
LAIF - State Treasury	\$ 1,048,537	\$	754	\$	1,048,537	\$	
Total investments by fair value level	\$ 1,048,537	\$	142	\$	1,048,537	\$	۲
				-			

The fair value of the District's investments in the pool is reported in the accounting financial statements as amounts based upon the District's pro-rata share of the fair value provided by the LAIF State Treasurer for the entire portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by the LAIF State Treasurer, which is recorded on the amortized cost basis.

The LAIF - State Treasury is not registered with the Securities and Exchange Commission (SEC) as an investment company; however, the LAIF - State Treasury acts in accordance with investment policies monitored by a Treasury Oversight Committee consisting of members appointed by participants in the investment pool and up to five members of the public having expertise, or an academic background in public finance. In addition, the LAIF - State Treasury is audited annually by an independent auditor.

D. Cash and Investments:

Cash in LAIF - State Treasury

The District maintains cash in the State Treasury Investment Pool - Local Agency Investment Fund (LAIF) as part of the common investment pool (\$1,048,537 as of June 30, 2019). The fair value of the District's portion of this pool as of that date, as provided by the pool sponsor was \$1,048,537. In general, this pool is used by most special districts and contains cash deposits and various securities permitted for local public agencies as specified in the Government Code of the State of California and the governing board approved investment policy. Interest earnings in this pool are allocated on a pro-rata basis, based on the fund balances of each district. In accordance with Governmental Accounting Standards Board (GASB) No. 31, investments in the State Treasury Investment Pool - Local Agency Investment Fund should be recorded at fair value. However, the District determined that the fair market value approximates cost; therefore, no adjustment was made to reflect the difference.

Cash on Hand and Banks

Cash balances on hand and in banks (\$134,154 as of June 30, 2019) are insured up to \$250,000 by the Federal Depository Insurance Corporation.

Analyst of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State funds are restricted by Government Code Section 53635 pursuant to Section 53601 to invest only in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurers repurchase or reverse repurchase agreements. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At June 30, 2019 credit risk for the District's investments of \$1,048,537 was as follows: The LAIF Investment Pool is rated A+ by Standard and Poors with a Moody's rating of Aa3.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits:

D. Cash and Investments: (Continued)

The California Government code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

As of June 30, 2019, the District's bank balances (including petty cash) of \$134,154 was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government Code. Investments in any one issuer that represent five percent or more of the total investments are either an external investment pool and are therefore exempt. As such, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the LAIF pool.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-bearing investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

D. Cash and Investments: (Continued)

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

	Maximum Remaining	Maximum Percentage	Maximum Investment in
Authorized Investment Type	Maturity	of Portfolio	One Issuer
Local Agency Bonds, Notes, Warrants	5 Years	None	None
Registered State Bonds, Notes, Warrants	5 Years	None	None
U.S. Treasury Obligations	5 Years	None	None

Mortgage Pass-Through Securities	5 Years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

E. Accounts Receivable:

Accounts receivable represents amounts due to the District as of June 30, 2019 on current grants and contracts. There were no receivables which are not scheduled for collection within one year of year end. At June 30, 2019 accounts receivable consisted of the following:

Federal Government:		
USFS Fire Prevention	\$	120,812
USFS Countywide Fuels		74,351
USDA NRCS Forestry Implementation		25,000
Other Federal Programs		6,123
State Government:		
California Department of Food and Agriculture		13,629
Other State Programs		5,586
Local Sources:		
Proposition 84 Department of Water Resources		197,782
Sunrise Powerlink Mitigation		13,540
Other Local Sources	a	13,743
Total	\$	470,566

F. Capital Assets:

G.

A summary of changes in capital asset activity is as follows:

Total Accumulated Depreciation	(342,762)		(35,448)	 (378,210)
Net Capital Assets	\$ 959,209	\$	(33,537)	\$ 925,672
Accounts Payable:				
Accounts payable at June 30, 2019 consisted of:				
Back Country Land and Trust - Proposition 84		\$	99,072	
Vendors Payable			47,151	
Benefits Payable	(7 <u>–</u>	_	14,639	
Total	8	\$	160,862	

H. Unearned Revenue:

Unearned revenue at June 30, 2019 consisted of:

US Fish and Wildlife - Green Schools	\$ 7,449
SDG&E Community Resource Centers	21,500
Other Local Sources	 8,925
Total	\$ 37,874

I. Operating Lease:

The District leased a copier under an operating lease agreement expiring through June 2019. The agreement does not contain a purchase option and does not meet the requirements for capitalization. No minimum future rental payments were due under this lease.

J. Deferred Compensation:

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457(b) on a voluntary basis upon date of hire. The plan is currently under an investment group contract with Lincoln Financial Group. The plan requires a minimum bi-weekly contribution of \$10 to be allocated for each option preference. The maximum amount that can be deferred under this plan is the lesser of 100% of the participant's includible compensation or \$19,000 (\$25,000 if age 50 or older) for the calendar year 2019. The District does not fund or contribute any matching employer contributions to the plan.

The District also provides pension benefits for all its eligible employees in lieu of social security through the plan as of the date of hire. Employees voluntarily select a contribution plan that is qualified under Section 401 (a) and 501 (a) under the Internal Revenue Code whereby the District makes monthly contributions at the social security rate of (10.5%) based on continuous service until termination, retirement, death, or unforeseeable emergency.

The District also provides pension benefits for all its eligible employees in lieu of medical benefits as of the date of hire per voluntary request. Employees covered under a personal health plan have the option to contribute waived District medical benefits to their deferred compensation plan. For the fiscal year ended June 30, 2019 the total District contribution to the plan for all participating employees was \$31,335.

K. Risk Management:

The District is exposed to risk of losses due to:

- a. Torts,
- b. Theft of, damage to, or destruction of assets,
- c. Business interruption,
- d. Errors or omissions,
- e. Job related illnesses or injuries to employees,
- f. Natural disasters
- g. Other risks associated with public entity risk pools

K. Risk Management: (Continued)

Risk management is the process of managing the District's activities to minimize the adverse effects of these risks. The main element of risk management are risk control (to minimize the losses that strike an organization) and risk financing (to obtain finances to provide for or restore the economic damages of those losses). Risk financing techniques include risk retention (self-insurance), risk transfer to and from an insurer, and risk transfer to a non-insurer.

The District has implemented the risk financing technique of risk transfer to an insurer. The District has purchased property and liability insurance as well as workers compensation insurance to cover any losses resulting from the risks identified above. The District is insured under a plan with the Special Districts Risk Managements Association (self-funded trust pool), for commercial, general liability, and errors and omissions in the amount of \$1,000,000 in addition to workers' compensation insurance in statutory amounts. There have been no significant changes or reductions in coverage from the prior year. No claims have been asserted during the year and there are no unpaid claims. No settlements have exceeded coverage in the past three years.

L. Commitments and Contingencies:

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under term of the grants, it is believed that any required reimbursements will not be material.

Aubrey W. Mann, CPA Kevin A. Sproul, CPA

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Resource Conservation District of Greater San Diego County Lakeside, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the aggregate remaining fund information of Resource Conservation District of Greater San Diego County, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Resource Conservation District of Greater San Diego County's basic financial statements, and have issued our report thereon dated March 2, 2020.

Internal Control Over Financing Reporting

In planning and performing our audit of the financial statements, we considered Resource Conservation District of Greater San Diego County's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Resource Conservation District of Greater San Diego County's internal control. Accordingly, we do not express an opinion on the effectiveness of Resource Conservation District of Greater San Diego County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Resource Conservation District of Greater San Diego County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
